The Cineclub Bolzano was founded in 1969. Its goal is to promote film culture through various activities. For years, it has become the go-to place for video makers in the province, providing all the necessary knowledge for creating a complete audiovisual project.

Creative workshop

# photodumpPIXEL

The aim of the workshop is to ask ourselves some questions: Why do we take so many pictures? Why are some moments important for us? What is the use we make of these pictures?

In these two days we will reflect on digital images and videos and the creative use we can make of them.
